PRAKASH KUMAR DARAM

daramprakashkumar587@gmail.com   +91-6302581405

SUMMARY

Recent graduate with a strong foundation in computer science and training as a Python developer. Seeking opportunities to leverage Python programming skills and contribute to innovative software development projects.

EDUCATION

2025

Master's Of Computer Applications   CGPA:8.10(81%)

Pedanandipadu College of Arts & Sciences

2023

Bachelor of Science in Statistics and Computer Science CGPA:8.11(81%)

Jagarlamudi Kuppuswamy Choudary College

2020

Intermediate MPC   CGPA:8.34(83%)

Sri Krishna Junior College

2018

Secondary School and Certification   CGPA:9.3(93%)

B V R Z P High School

INTERNSHIP

April 2023 - July 2023

UI Development Intern — REDCARPET Animation Visual FX

- Description: Built static web pages using HTML, CSS, JavaScript, and ReactJS during a focused UI development internship.

WORK EXPERIENCE

Trainee Python Developer — Viprata Software Services   **Apr 2025 - Present**

- Responsibilities: Working on backend development using Python, Django, and Django REST Framework. Currently contributing to a hospital management project by building RESTful APIs, handling database models, and integrating backend functionality to support patient data and operational workflows.

Junior Python Developer — Vcube Software Solutions   **Nov 2024 - Apr 2025**

- Responsibilities: Assisted students as a technical trainer by resolving doubts, guiding projects, and simplifying complex Python and backend concepts. Also supported internal technical issue resolution to ensure workflow efficiency.

Sales Associate — DMart (via PROMPT & QUESS)   **Oct 2023 - Jan 2025**

- Responsibilities: Refill stock in biscuit and frozen sections to ensure shelves are well-stocked and products are readily available for customers.

TECHNICAL EXPERIENCE

Hospital Management System — Viprata Software Services   **Apr 2025 - Present**

Description : Contributing to a real-time hospital management project using Python, Django, and Django REST Framework. Responsible for developing RESTful APIs, designing models, managing views and serializers, and integrating backend logic with frontend components to handle patient records, appointments, and operations.

Student Management System

Description : Developed a backend system using Python and Django to manage student data, attendance, and mock performance tracking. Implemented secure login functionality using email validation. Focused entirely on backend design and database logic.

Personal Portfolio Website

Description : Created a fully responsive personal portfolio using HTML, CSS, and JavaScript. Highlights skills, projects, and contact information with a clean UI and smooth navigation for showcasing professional work.

TECHNICAL SKILLS

Programming : Python (Scripting, Data Structures, Lambda Functions, Generators, Decorators)
Web Development : HTML, CSS, JavaScript, React JS, Django, Django REST Framework (DRF)
Database : MySQL (Stored Procedures, Stored Functions), MySQL Connector
Tools & Platforms : Git, Figma (basic familiarity), Postman
Concepts: API development, MVC architecture, backend development, basic frontend integration

---

ACHIEVEMENTS

- Awarded **Best Employee** at DMart in 2024 for outstanding performance in stock and inventory management.
- Scored a **perfect 10/10 in Physics** in SSC public exams (2018); received prize money for academic excellence.

CERTIFICATIONS

Python Full Stack Course Certification – Vcube Software Solutions   **2024**

- Successfully completed hands-on training focused on Python, Django, REST APIs, and backend development.

Python Fundamentals – Great Learning   **2024**

- Completed foundational Python programming course with certification

UI Developer Certification – REDCARPET   **2023**

- Completed certification during internship, covering HTML, CSS, JavaScript, and ReactJS.
